

Schaumburg Flying Club  
2005 Annual Meeting  
20 Oct 7:30

**Attendees:**

Jeff Puglielli  
Norb Paprocki  
Kevin Kazmierski  
Paul Hoppe  
Leslie Wadsworth  
Mike O'Brien  
George Moshos  
Mike Miley  
Ken Jarosch  
Juan Cuellar

**Maintenance Overview**

expenses down in '05 (by 4K)  
preventative maint is paying off  
we are learning to shop for parts rather than buy from shops  
mait cost \$17.63 to \$20.00 per hour in '05  
9SP needs overhaul early 06  
-all details in presentation

**Financial Overview**

Monthly costs add up to about \$110 per member per month  
Utilization is at about 80 hrs per month with top users flying less  
Pre-paid billing is helping with cash flow

**Membership changes**

Three members added with four looking to leave  
We spent \$1300 on two mailings that attracted two of the new members. Another mailing in spring.

**Vote Board of Candidates**

Unanimous vote on elections

**Social Meeting**

Preheating is Coming!  
30 degrees or less needs preheat  
2-3 hours is all that is needed. Actual is 10 degrees per hour. Don't leave it for days. The ends should be lit when plugged in. Be sure to hang the plug on the tie down to keep it off the ground since it is live at all times.

The GPS in 4SA has a new annunciator which should be working correctly, but might still be flashing. Let Norb know if you see it flashing

One of our new members, Angus, presented many pictures from his trip to the Apostle Islands. He traveled

to a wonderfully nice airport on Madeline Island. Mainland's Bayfield is home of Apostle Island National Seashore. Old source of the brown stone materials used in Chicago after the fire. Many light houses! Many sea caves on edges of islands from erosion of sandstone. Trip up took 3 hours with headwinds but normally 2.5 hours.

We must check out 68C - Central County Airport for the weekly Friday lunch club. Only \$10 for a lifetime membership and then \$6 for lunch.

Anyone wanting to go to Dupage tower on Sat Nov 5 2pm, let Jeff know.
